

# ICT4D for Malaria Elimination Conference Recordings

Visit our ICT4D & Malaria conference website for the recordings <https://www.ict4dconference.org/ict4d-malaria/recordings/>.

Select the discussion or presentation you wish to watch. (Please note that networking discussions were not recorded).

The first video will be in English language, and below it you will find a French language version as well.

Once the video has started you will be able to turn on the captions or adjust your playback speed under 'Setting'.

Don't worry, you don't need to be signed into Pathable to watch the recordings.

We have added them to the session description:
