Discussions with provocative questions.
Practical workshops.
Learning Carousel and demonstrations.

Tailor your own conference

March 18: workshops & networking events
March 19-20: ICT4D Conference
March 21: ICT4D Training Day

BACKGROUND

The ICT4D Conference is a **dynamic multi-disciplinary gathering of 800+ inspiring leaders** and thought-provoking speakers from public, private and civil society organizations from across the humanitarian and international development community.

The global conference explores how **Information Communication Technology for Development (ICT4D)** and data innovations are making a measurable difference in millions of peoples' lives and increases the impact of humanitarian relief, development and conservation projects.

Highly interactive and hands-on, the conference attracts a diverse audience of technical advisors and senior executives.

"CRS founded the ICT4D Conference in 2010 to bring together a community of practitioners and learn from each other about how to best apply rapidly evolving digital technologies to help accelerate the end of poverty, hunger and preventable disease. Each year I am amazed by the incredible examples of how the responsible and effective use of tech and data enable us to increase our impact at scale. I am particularly excited about the upcoming Conference as it will bring together the global ICT4D community in person after a long time."

Nora Lindström, senior ICT4D director, Catholic Relief Services

OBJECTIVE

The ICT4D Conference aims to advance global knowledge exchange and build capacity on ICT4D and digital development to drive more impactful use of technology for good.

Knowledge exchange

To create an engaging and fun atmosphere for participants to share innovations, and learn new skills.

Cross-sectoral learning

To design inclusive spaces for cross-sectoral learning and capacity building practitioners and local implementation.

ICT4D partnerships

To foster partnerships among local and international actors —NGOs, governments, private sector, research institutions, and funders.

HISTORY

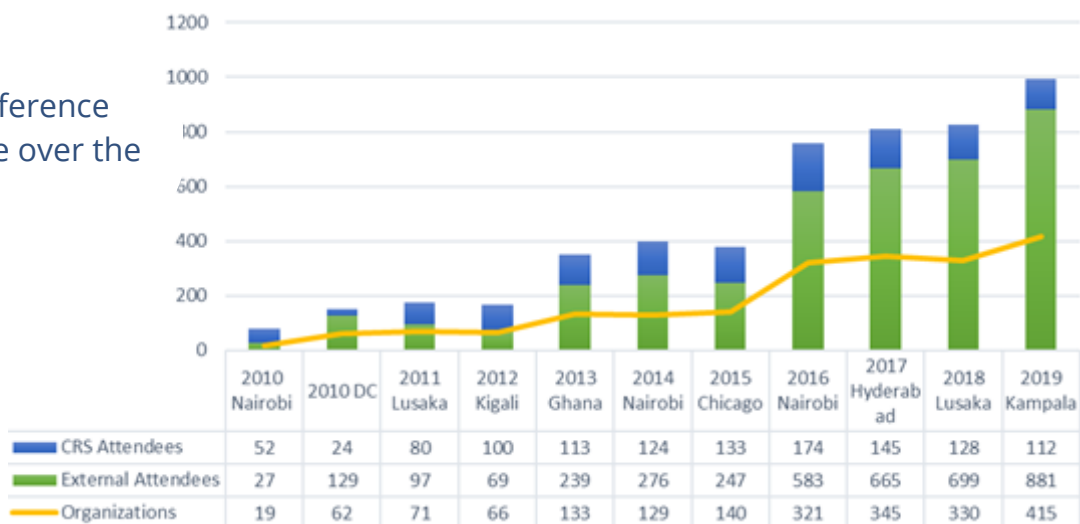

ICT4D Conference was founded in 2010 by Catholic Relief Services and has grown each year to become an invaluable opportunity for civil society, and public and private organizations to exchange their insights and network.

Recent Conferences were held in Kampala, Uganda (2019), Lusaka, Zambia (2018), Hyderabad, India (2017), and Nairobi, Kenya (2016).

In 2024, the ICT4D Conference returns to Ghana to follow up on these conversations and discuss how development programs can achieve excellence in their reach and effectiveness through the application of digital innovations.

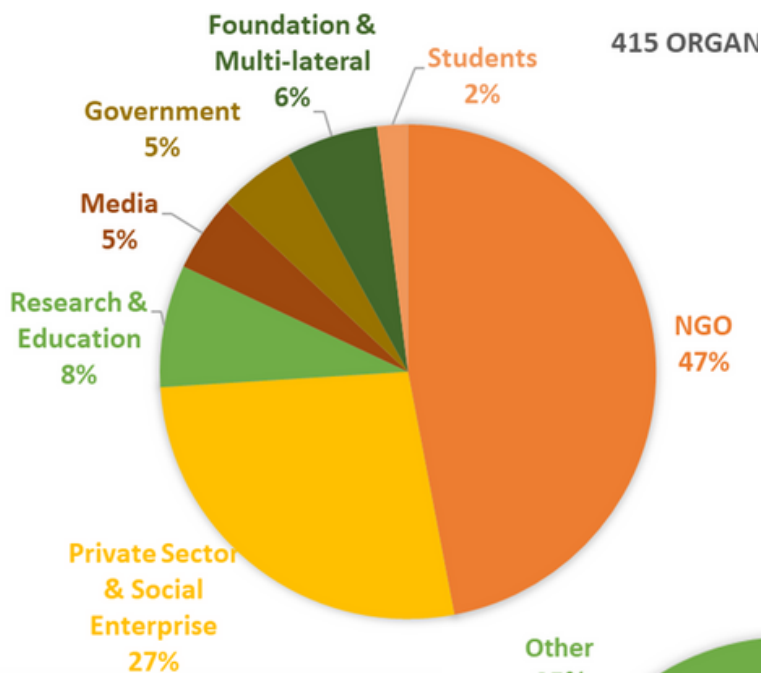

ICT4D Conference attendance over the years

DIVERSE AUDIENCE

Past ICT4D Conferences have been attended by C-suite executives, senior managers, program leaders, field officers, IT/data managers and senior technical advisors from disciplines ranging from agriculture, health, education, conservation and disaster management to information and communications technology, data management, GIS/mapping and financial services.

Audience profile of the last ICT4D Conference

993 Participants
415 organizations
81 countries

AGENDA

The event team works closely with partners and sponsors to develop a timely and inspiring agenda for the 12th ICT4D Conference in Ghana.

- Joseph Mucheru, MBS Cabinet Secretary, Ministry of ICT, Kenya

PAST PARTNERS & SPONSORS

MINISTRY OF ICT & NATIONAL GUIDANCE

PARTNER BENEFITS

The ICT4D Conference provides an exclusive and high-profile platform to engage with regional governments and policymakers, U.N. agencies, international and regional NGOs, and businesses. Partnering positions your agency firmly as a universally recognized **thought leader in digital development**.

Influence the debate: Give a keynote presentation to highlight digital development trends in Ghana. Lead a constructive dialogue with key policymakers, funders, program directors, field directors, and technical experts.

Promote your work: Our experienced conference executive and marketing team ensure that you will benefit from reaching an audience of ICT and development experts.

Meet key decision makers: Our interactive networking sessions will allow you to strengthen existing relationships and build new ones with key global and regional decision and policymakers. Our focused audience ensures that only key people attend and that the discussions have an impact far beyond the conference.

GETTING INVOLVED

Catholic Relief Services invites the host country government to join the ICT4D Conference as speaker and partner, and benefit from the global ICT4D community to gather in their capital.

This could include, but is not limited to:

- **Speaking:** Opportunity to showcase your work and thought leadership in a Keynote and/or high profile panel discussion
- **Partnering:** Recognition as co-lead of the conference track on Digital Development in Ghana. Influencing the agenda and debate. Supporting with speaker recommendations.
- **Learning:** Attend the Conference and Training Day. Exclusive ticket for senior representative to attend the Executive session.
- **Networking:** Join the advisory group beforehand and numerous formal and informal networking sessions during the Conference.
- **Media:** Join the Press Event on the first Conference Day, and provide content for Press Releases.
